## Parking Demand Management

### Car Sharing

The Parking Authority of Baltimore City is partnering with Zipcar as a parking demand management tool.

Zipcar members report giving up or delaying a planned vehicle purchase and walking, bicycling and using transit more, and reserving Zipcars when they need to drive.

One Zipcar can remove 15-20 personally owned vehicles from the road, improving parking for everyone.

### Bicycle Parking

Bike racks are available in five City owned garages. Over 50 single space meter poles have been converted into bike racks throughout Baltimore. Secure Bike Parking will be available soon at Lexington Street Garage.
