### Job Summary

The Parking Analyst I, Parking Meters is responsible for collecting real-time, on-street and off-street data collection of parked vehicles in metered areas of Baltimore City. The position will collect, record, and analyze the collected data for reporting purposes.

### Essential Duties and Responsibilities

- Walk and/or drive a city vehicle to various assigned locations throughout the city;
- Count and record the number of vehicles that have either paid to park, not paid to park, or have been cited for non-payment to park;
- For non-payment parked vehicles, record the last date/time of the citation given;
- Use a handheld device and/or notebook to record collected counts;
- Transfer collected information to Excel or other programs;
- Analyze the collected information by type to create spreadsheets and reports;
- Write clear, understandable correspondence in emails and memos regarding findings;
- Collaborate with supervisors, operations and meters team to ensure understanding of duties and activities, accuracy of data collection, and work performed;
- Follow PABC and City of Baltimore (COB) policies and procedures as required;
- Perform other duties as assigned.

### Supervision Received and Exercised

Work is assigned and performed under direct supervision with guidance and established procedures. Changes to policy, procedure or assignments must be referred to a supervisor. This position does not oversee the work of other personnel.

### Qualifications

- High school diploma or GED required, advanced training or education preferred;
- Data collection and data analysis experience required.
- Minimum of two years related experience preferred.
