 - a. Yes

18. Is the PARCS contractor to maintain the PARCS network equipment or will maintenance be done by PABC?
 - a. PABC

19. Will PABC supply the internet connection to each facility?
 - a. Yes

20. Will PABC supply a firewall at each facility?
 - a. Yes

21. Under Optional, what will the CCTV cameras on each Ticket Dispenser, Exit Verifiers, Pay on Foot Machines and Pedestrian Door readers need to monitor (patron interaction with the station, overview of the overall traffic or other specific views)?
 - a. Patron interaction with the device

22. Will PABC provide the PARCS vendor a laydown area at each site to move PARCS equipment from the storage area to the site before installation of the equipment?

a. Yes

23. Is there an onsite dumpster that the PARCS vendor may use for disposal of construction waste?

a. No

24. According to the RFP, the JFB Lot has a request for new equipment. When inputted into the GPS, the lot that we are brought to is next to the shelter, on the Fallsway. When we check the PABC website, the JFB lot is located directly behind this lot, but on Guilford, and matches the street address when entered into Google. However, PABC lists another lot, JFA Lot, and this lot is the only one that has equipment, and matches the description.

Please confirm that the attached picture is the correct lot, referred to as JFB Lot in the RFP. (see pictures below)

a. The attached picture is of the JFB Lot.

25. Please confirm whether the Authority would like us to include cameras in our quotes, or whether you prefer continuing to utilize the existing cameras?

a. Please refer to exhibit B. The existing garage surveillance cameras should not be affected by this scope of work.

26. The RFP indicates that any attended pay areas need to have EMV with chip and pin. Please clarify if you want chip and pin, as the pin is not traditionally a requirement in the US.

a. Yes

27. With the exception of the options, do all Entry/Exit/Pay-on-Foot stations have the required data/power conduits in place? If not, will PTS be responsible for furnishing and installing if awarded the project?

a. Yes

28. Will the overhead door readers equipped with access cards need to have an intercom as well?

a. Yes

29. The RFP states to provide AVI solutions as an alternative. Is this for each entry/exit station and overhead door readers at each garage?

- a. Yes
30. Do all the current locations listed in the RFP have equipment? Including the overhead doors and pedestrian doors
- a. All locations have equipment. All locations do not have overhead doors and pedestrian doors.
31. If we provide a bid based on a SaS (Hosted); Do you want each garage's monthly charges listed individually?
- a. We are not interested in a per transaction fee structure.
32. If we provide this format then we would need the number of transactions per garage
- a. See above
33. What are the interior variable message signs to display?
- a. Varied information about each of the facilities.
34. Level 1 Service: please clarify that this requires 24/7 onsite emergency after hours service? Which includes 24/7 phone support?
- a. Yes
35. Level 2 Service: Includes 24/7 phone support and normal business hours service calls?
- a. Yes
36. Level 3 Service: Includes 24/7 phone support and normal business hours service calls?
- a. Yes
37. What is the timeline of this project?
- a. 12 months after award
38. Will you accept our Installation policy which covers installation of equipment, not Builders' Risk?
- a. No
39. Is it possible to strike this requirement?
- a. No
